

Welcome to the...

Sadie Morgan

INAUGURAL SYMPOSIUM 25th September 2023

Homes are not just structures,
but cornerstones of our lives.

Today, we will be discussing:

Policy & Industry changes

Synergy & collaboration
between stakeholders

Knowledge sharing

and ultimately...

what needs to change in industry
and policy for healthy homes
and neighbourhoods.

Happy people make
good places, good
places have value.
- fundamental
to developing.

Understand
dynamics of
the community

When developing and
selling properties ...

... there's not
much thought
what's outside
the door...

LET'S BEGIN...

DEAD SPACES

1% of 30,000 are involved in town planning.
Lots of the community are left out, and there needs to
be diversity in decision making - balance of power.

we don't feel a
part of the
development.

Buildings are
then not fit for
purpose.

Development sites can
seem private, expensive
and inaccessible.

KEEP
OUT

Why a sense of
control is important
~ culture of
participation.

It's important to reflect a community's needs...
NOW → & IN THE FUTURE.

Engagement
process, from all
areas and ages.

Long term
goals

Short term
goals

PARTICIPATION PRACTICE

Panel with a mix of ages. Relationships
are formed with each other = TRUST!
This encourages inclusivity within the group.

BUT WHAT DOES
THIS MEAN?

Planners are scared of
participation...

The process needs to be more ENJOYABLE! -

should we talk
to people on a
continuous basis?

HEALTHCARE

Language of healthcare and
medicine within development:

1. DO NO HARM
2. SOCIAL DETERMINANTS OF HEALTH
3. PREVENTION, HEALTH LONGEVITY
4. GIVE HOPE

HEALTH & CLIMATE

We have to
create healthy
places that
support the
planet,
people and
the economy.

Data in every council

We've got the data and evidence on
housing and health, but we're not
using it.

GO

Beyond financial return -
and fight against
economic incentive.
'Value' has a different meaning
in different areas.

It's important to remember
local communities may
have to live through
construction sites.

ENGAGE THROUGHOUT THE PROCESS & COMMUNICATE

Enable people to
understand how they
can contribute,
and join the
conversation

THANKS TO ALL

FOR OPENING UP
THE CONVERSATION!
